

Caring for Our Community

CHA Hollywood Presbyterian Medical Center Teams with Seoul Medical Group to Host a Free Community Health Fair

Relationships with our patients and community and fellow healthcare providers are an important aspect of how we provide care at CHA Hollywood Presbyterian Medical Center. With our guiding mission to provide quality care with compassion and respect to all, we recently teamed with Seoul Medical Group to host a free health fair to the Korean community.

On Saturday, September 24, 2016, more than 300 seniors took part in an annual community health fair on the campus of CHA Hollywood Presbyterian Medical Center. Together with Seoul Medical Group, we offered free flu shots, free health screenings such as dental check-up, acupuncture, moxibustion (burning of the moxa in Oriental medicine), and several lectures by noted physicians on such topics as diabetes, cancer prevention and treatment, and dental health.

“We are pleased to work with CHA Hollywood Presbyterian Medical Center, once again, to provide health and wellness information to our community,” says Minh Cha, MD, President of Seoul Medical Group.

CHA Hollywood Presbyterian Medical Center President and CEO Gerald B. Clute shares these sentiments, adding, “Together with Seoul Medical Group, we are dedicated to being the difference to our entire community, and we will continue our efforts to ensure the care and well-being of all our patients.”
